-

Action Plan See attached.

The Committee met regularly to discuss the action plans and agenda and co-opted members to attend as the case arose.

Kids IP Day – a tribute to Patrick Terroir. Updated slide deck and translation versions into 7 languages (Portuguese, Italian, German, English, Korean, Japanese and Chinese)

Webinars planned for latter part of 2022

- FTO workshop
- Transfer pricing

Work products:

- Development of material and hosting a small table at upcoming AGM: Energy: a greener future: Mind the Gap; Life Sciences: The challenge for university technology transfer offices, getting research into the market.
- Various articles in LES Nouvelles
- In progress: Special edition - Laws affecting commercialisation of IP: Scoping of content for publication in Les Nouvelles and follow-up seminars

Plans 2022

Participating and contributing teaching and training workshops.	The SME/start-up company journey to patent monetisation (e.g. through licensing) : Collaborative effort with LESI committees in a series of webinars for SMEs with experts guide SMEs through the various elements of IP commercialisation. We could even think of having an IP licensing help-desk, where SME post their enquiries and receive back an advise from an IP licensing expert.	Nikos Minas
IP and Transfer pricing: Inter-company licenses	Arrange a webinar with expert speakers addressing the topic of tax, and Transfer pricing - the risks and rewards	Madelein Kleyn
Publication of special edition Les Nouvelles – laws affecting commercialisation of IP – multi-jurisdictional – and subsequent follow-up seminars	Covering the main areas affecting the licence grant and transactions in IP, but excluding competition law to make it manageable – when scoping finalised the number of jurisdictions to be discussed with David Drews.	Jennifer Pierce
Practical guide for Entrepreneurs in collaboration with universities		Derick Swart /Krystian Maciaszek
